

## Face coverings required on all U-M campuses

Dear U-M Strategic Supplier:

As you may already know, U-M's fall semester begins on August 30, and thousands of students, employees, and visitors will be on U-M's campuses. In addition, COVID-19 case transmissions are increasing due to the Delta variant.

With that in mind, U-M updated—effective August 11—its [face-covering policy](#). All students, employees, and visitors—regardless of vaccination status—must now wear a face covering when on the Ann Arbor, Dearborn, or Flint campuses. This policy also includes U-M's off-campus properties and public transportation system. Face coverings are not required outdoors on U-M's campuses.

Please ensure that you and your employees follow the face-covering policy as well as [complete the ResponsiBLUE](#) screening check before entering U-M campuses.

Thank you for following these important public health safety measures to keep yourself and the U-M community safe.
