

Mr. Sulikowski,

We thank you and U of M for the great opportunity to purchase laptops at such a bargain price. Because of this, we were able to add an educational online Literacy and Math program to our camp for at-risk kids this year and they loved it! Many of them do not have computers at home and it was such a treat that one young man didn't want to go outdoors because he "needed to finish his keyboard work." This academic program will help the children not lose what they learned during the year and they had fun doing it. We will be using these for our tutoring program as well, all year long.

Thanks Blue and Gold!

Susan Gawencki,  
CKC Center and Tutoring Program
