

BUSINESS TRAVELERS ARE OUR PRIORITY.

It is our goal at Delta to create the best travel experience possible and offer valuable benefits to meet their needs.

Preferred Seat Selection

Business travelers can choose where they sit ahead of time—aisle, exit row or window—near the front of the plane at no extra cost.

Check-In Recognition

Delta's kiosks and online check-in channels can identify business travelers—recognizing the value of your business.

Priority SkyMiles® Medallion® Upgrades

We offer business travelers who are SkyMiles Medallion Members more benefits, like upgrade priority over other Medallion Members in the same Medallion group.

Priority Service Recovery

Business travelers will be prioritized above other passengers during rebooking for flights and seats when Medallion® Status and booking class are the same.

Denied Boarding Prioritization

If every confirmed passenger cannot be accommodated on a flight, business travelers receive priority status in denied boarding situations.

Downgrade Prioritization

In the unlikely event we cannot accommodate every ticketed passenger in a cabin of service, business travelers take priority over non-business travelers of comparable status.

Priority Standby

Business travelers receive tie-breaker prioritization over similarly situated non-business travelers when standing by for a flight.

Priority Boarding

All business travelers receive enhanced priority boarding, ensuring that they get on their flight sooner.

Onboard Recognition

Delta's flight attendants have been empowered to better engage with business travelers through an innovative Guest Service Tool in an effort to personalize the travel experience.

 Denotes benefit is offered on partner airlines as a component of Corporate Priority. See below for a list of participating airlines.⁵

To be eligible for any Corporate Priority benefit, tickets must be purchased via authorized company channels and reflect the company's unique identifier, known as a Corporate Ticket Designator. Tickets purchased through any other ticketing source will not qualify. Customers traveling on qualifying tickets will receive tie-breaker prioritization over similarly-situated customers not traveling on qualifying tickets when being rebooked, assigned a boarding zone, waiting for a seat assignment on the Airport Standby List, or a SkyMiles Medallion Member who has requested an upgrade. Factors impacting placement on Rebooking, Boarding, or Standby Airport Priority Lists may include but are not limited to ticket value, frequent flyer status, and check-in time. These benefits do not guarantee receiving a seat assignment. Factors and formula for passenger prioritization, including factors used to identify similarly situated passengers, are confidential. Seat assignments and prioritization are in Delta's sole discretion. Benefits may be suspended without notice during irregular operations. All associated change fees apply. Benefits subject to change without notice; other restrictions may apply. All SkyMiles rules apply. To review the rules, please visit delta.com/membersguide. Bonus miles do not count towards Medallion or Million Miler™ Status. Benefits void where prohibited by law. Delta's Global Corporate Priority is offered on these airlines: Air France, KLM, Aeromexico, Virgin Atlantic, and LATAM. Priority Boarding is not available with Virgin Atlantic. Preferred Seats is not available with LATAM. Visit business.delta.com/content/b2b/en/home/corporate-traveler-benefits.html for complete terms and conditions. ©2024 Delta Air Lines, Inc. 24-04-GS1827200
