Dear Valued Customer

It is with great pride that we are able to announce that Madison Electric has been selected by the Environmental Protection Agency (EPA) and the Department of Energy (DOE) as an ENERGY STAR PARTNER.

This achievement highlights not only our continued support for energy conservation, but also puts us in the forefront to promote energy saving products and systems.

What is ENERGY STAR?

"ENERGY STAR is a government-backed program helping businesses and individuals protect the environment through superior energy efficiency."

According to the latest statistics provided by the DOE:

"In 2004 alone, Americans, with the help of ENERGY STAR, saved enough energy to power 24 million homes and avoid greenhouse gas emissions equivalent to those from 20 million cars – all while saving \$10 billion."

We are very proud of the recognition we have received from the EPA and the DOE in being selected as an ENERGY STAR PARTNER. Madison Electric understands that this is not the conclusion of the process, but merely a first step in our efforts to promote energy conservation and environmental protection.

Throughout the coming months, your Account Manager will be able to provide you with specific details regarding the program. IN the interim, if you would like to know how purchasing energy savings products will save you money, or what is needed to have your facility earn the ENERGY STAR LABEL, please feel free to contact your Madison Representative. We encourage, no we CHALLENGE you, our loyal customer, to help protect our Environment thru energy conservation.

Thank you

Joseph Schneider
President
