

# Enable Edit Local Address Book at Device

---

*U of M*

*Verified Solution 10/22/2017*

## **Description:**

Users require ability to add contacts to the local address book at the device, using the device's User Interface (UI). This option can be enabled in the device setting.

## **AltaLink C80xx:**

1. In the Embedded Web Server, click Properties > Apps > Email > Setup.
2. Click the Address Books tab.
3. To configure the Address Book settings stored in the device, for Device Address Book, click Edit.
4. To set the policy for creating and editing contacts on the device touch screen, for Create / Edit Contact from Touch Screen, select an option.
  - To allow all users to create and edit contacts on the device touch screen, select All Users.
  - To restrict creating and editing contacts on the device touch screen to system administrators, select System Administrators Only.
5. Click Apply.
