Free pick up of used toner cartridges with your order delivery

Pick up of empty cartridges for recycling (without ordering) - 10+ for efficiency purposes

Hewlett Packard Authorized Reseller of Energy Star® qualified printing & imaging products

## Did you know...

1. It takes 3 oz of oil to make an inkjet cartridge
2. It takes 3 quarts of oil to make a laser toner cartridge
3. Half a gallon of oil is conserved for each laser cartridge that is returned for remanufacturing.
4. Each discarded cartridge adds approximately three pounds of waste to our landfills or the equivalent of 112,463 VW Beetles
5. Over 38,000 tons of plastic & metal are saved from landfills in the U.S. each year due to cartridge recycling
6. In just 7 months, cartridge recycling would save 11 million gallons of oil—more than what was spilled by the Exxon Valdez in Alaska in 1989
7. 92% of inkjet cartridges & 60% of laser cartridges are not recycled—but could be...
